

Fire Alarm Pagers for Deaf Customers

Deaf customers using Ards Blair Mayne can receive fire evacuation announcements via a handheld pager.

The pager is linked to the centres fire emergency system and vibrates when an announcement is made.

A pager can be collected from reception to be carried during your visit. Unfortunately, it cannot be taken into the pools or wet Spa areas, as it is not waterproof.

If you require a pager, please ask at reception on your way in. You will be asked to complete a log sheet. When you have finished your visit, the pager must be returned to reception and logged returned against your name.

The pager remains the property of the centre.
